VULNERABILITY ESTIMATE FOR MISSION C245C

CONCLUSION:

There are no known surface-to-air missile defenses in South China capable of interfering with Mission C245C. The risk of a successful U-2 intercept by a MIG-21 on this mission is less than 22%.

GENERAL:

The MIG-15, 17, and 19 do not present a threat to the U-2 at 69,000 feet. Of these three fighter types, none can cruise supersonic. The MIG-19 can exceed Mach 1, perform a dynamic climb to approximately 62,000 feet and cruise sub-sonic, steady state at 59,000 plus or minus 1000 feet. The MIG-19 does not have sufficient power to perform an effective ZOOM maneuver.

The MIG-21 has the capability of intercepting the U-2 at 69,000 feet by performing a ZOOM maneuver and launching an AA-2 Sidewinder type IR missile.

AIR ORDER OF BATTLE FOR SOUTH CHINA:

There are four airfields in this area pertinent to Mission C245C. They are Wuhu, Lei Yang, Luchiao and Fu Chou. MIG-21's have been noted in photography [redacted] as having been at Wuhu, Lei Yang and Kunming. MIG-19's are located at Luchiao and Fu Chou.

Based on the latest photography [redacted] we 25X1 estimate approximately 17 MIG-21's to be based at the air-fields mentioned earlier. Of this number we estimate four MIG-21's to be on strip alert and within range of Mission C245C. If this assumption is correct, then the estimated risk of a successful MIG-21 intercept against the U-2 at 69,000 feet is less than 22%. [redacted] 25X

[redacted] Red Chinese fighters have penetrated international waters in the past, and we must assume they will continue to intercept reconnaissance flights in the future.

A request for a SAM search thirty nautical miles either side of planned track has been levied on NPIC. The results were negative and copies of the request and results may be found elsewhere in this report.

REQUIREMENT: STATED IN COMOR 25/142 OF FEB 1965.

APPROVED BY USIB 3 MARCH 1965.

REQUIREMENT FOR IMMEDIATE COVERAGE OF 19
TARGETS IN SOUTH CHINA AND SUBSEQUENTLY

25X1

APPROVAL : 303 COMMITTEE APPROVED ON 31 MARCH 1965
FOR APRIL NRO FORECAST.
